# Be Fire Safe at Home, Remember the Steps

The name and the image of Sparky® are registered trademarks of the NFPA. Used with permission.

## How to Design Your Fire Escape Plan

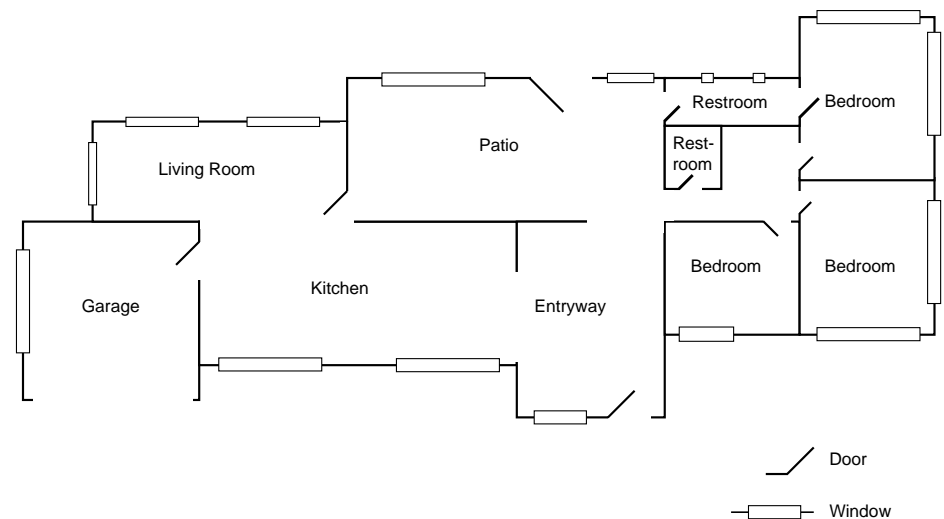

To design your own fire escape plan, sketch the floor plan of your home on a piece of paper. Indicate on the plan all doors, windows and other areas from which you could escape from each room in your home. Draw arrows to indicate the normal exits which would be your primary escape route. With an alternate color, draw arrows to indicate a secondary exit from each room in the home.

### Meeting Place

Choose a location outside the home where family members should meet once they have safely escaped. A neighbor's front yard or sidewalk may be an ideal meeting place.

### Practice

Circle all of the exits in this home. Then with the color red, draw arrows from each room to show how you can exit the house using doors. Next, using the color blue, draw arrows to show how you can exit the house using windows. Draw a yellow star to show where your meeting place is. Answers on page 20.

**Remember: Practice, Practice, Practice!**
